- This course calendar provides an updated listing of all grade 9 to 12 courses offered at LHSS, along with resources to assist and links with course selections and planning.
- Please refer to the LHSS website (<http://lhs.wrdsb.ca/guidance>) for more detailed information, including course descriptions and prerequisites.
- Course selections and additional info are available through students' WRDSB MyBlueprint accounts (including detailed course descriptions/prerequisites, etc.).
- Students are required to maintain FULL TIME status throughout the school year (min. 3 courses/semester).
- Grade 9 and 10 students must choose 8 courses for the school year (4 courses/semester) - spare periods not permitted until grade 11 (and completion of 16 credits).
- Make sure to research and choose your courses/academic levels carefully. Course changes at the start of each semester may not be possible due to timetable restrictions or full classes.
- Students should connect with your guidance counsellor, parents/caregivers and/or teachers to seek advice when making course selections and developing your pathways plan.

COURSE SELECTION INFORMATION & RESOURCES

PATHWAYS PLANNING TIPS

Make careful choices when determining course levels as these may impact post-secondary options:

- De-streamed grade 9/10 courses allow students to pursue college or university pathways in future grades.
- Academic gr. 9 & 10 courses can lead to either U (university), M (mixed) or C (college) level courses in grades 11 & 12.
- Students should research potential destinations/requirements for programs (including grade 12 courses) when choosing courses from grade to grade. Work backwards from those requirements to assist with planning.
- Make course selections VERY carefully. As LHSS is a growing school, we have many full classes and making changes to courses after the start of a new semester can be extremely difficult.

- At the start of second semester, students will use the MyBlueprint site to select their courses for the following school year. This is an excellent site to assist with course planning and engaging in pathways research.
- Visit [MYBLUEPRINT.CA/WRDSB](https://myblueprint.ca/wrdsb) or use the link on the LHSS website guidance course selection page.
- Click SCHOOL ACCOUNT LOGIN (green button) and use your school account login/password
- From MyBlueprint home screen, click HIGH SCHOOL on the left side blue menu.
- Make sure you select the appropriate grade level (next year's courses). Begin by adding courses using the plus sign beside each course under that particular grade.
- Select the course level/type from the options that appear then click ADD COURSE and you will see this class added to your list. Repeat this process for each course until you complete your selections.
- Students in grades 9 & 10 must have 8 credits.
- Students should add at least 2 alternate course options at the bottom of your list.
- To edit a selection, click the 3 dots beside a particular course and choose edit/change/delete and you can adjust that selection.
- Should you wish to replace a compulsory course (ex. Careers/civics with plan to take in summer school), you can adjust course filters when adding a course by switching to another subject area.
- Review your course selections, then click SUBMIT if everything is correct. You can go back and make adjustments prior to the course selection deadline.
- If planning for summer school, enter SUMSCH or SUMCOOP in your ALTERNATE COURSE field as part of selections.
- You can also plan ahead for future grades, but these are not final course selections—merely a potential course roadmap.

ONLINE RESEARCH/RESOURCES

When planning your Laurel Heights courses and potential post-secondary destinations, there are a number of useful online resources to help you get started:

SPECIALIST HIGH SKILLS MAJOR PROGRAMS (SHSM) @ LHSS

Our Specialist High Skills Major (SHSM) programs allow students to explore their interest in one of 4 sectors:

ARTS & CULTURE (Music, Drama or Visual Art)

BUSINESS

INFORMATION & COMMUNICATION TECHNOLOGY

MANUFACTURING

SHSM's are recognized by universities and colleges throughout Ontario. Students choose a set of grade 11 & 12 courses, earn certifications/specialized training, and take part in experiential learning activities specific to each program. This also includes Co-op and career-related experiences which assist students with post-secondary and career planning. **For more information, please connect with your LHSS guidance counsellor.**
